 - Venues, matching meals (mainly for Swiss affiliated) and misc.
- Zurich Tourism Office
 - Zurich card (72h free transportation + museums)

Welcome!

- Logistics
- Code of conduct
- Data

Code of conduct

- We embrace the Project Jupyter Code of Conduct:
 - Be inclusive, friendly, and patient
 - Be welcoming, considerate, and respectful
 - Be careful in the words you choose. Be kind
 - Moderate your expectations. Different people contribute differently
 - When we disagree, try to understand why. A simple apology can go a long way

Be pack-man!

- When standing as a group of people, always leave room for 1 person to join your group

THE PAC-MAN RULE

<https://www.ericholscher.com/blog/2017/aug/2/pacman-rule-conferences/>

Pac-Man rule invented by @ericholscher

Animated by @dylanbeattie

How we work

- Tackle and solve *concrete* problems
 - The workshop is more of a hackathon than a conference
- *We collaborate*
 - No hierarchies nor competitions
- Everybody *actively* contributes, in different ways
 - There is always something new to learn!

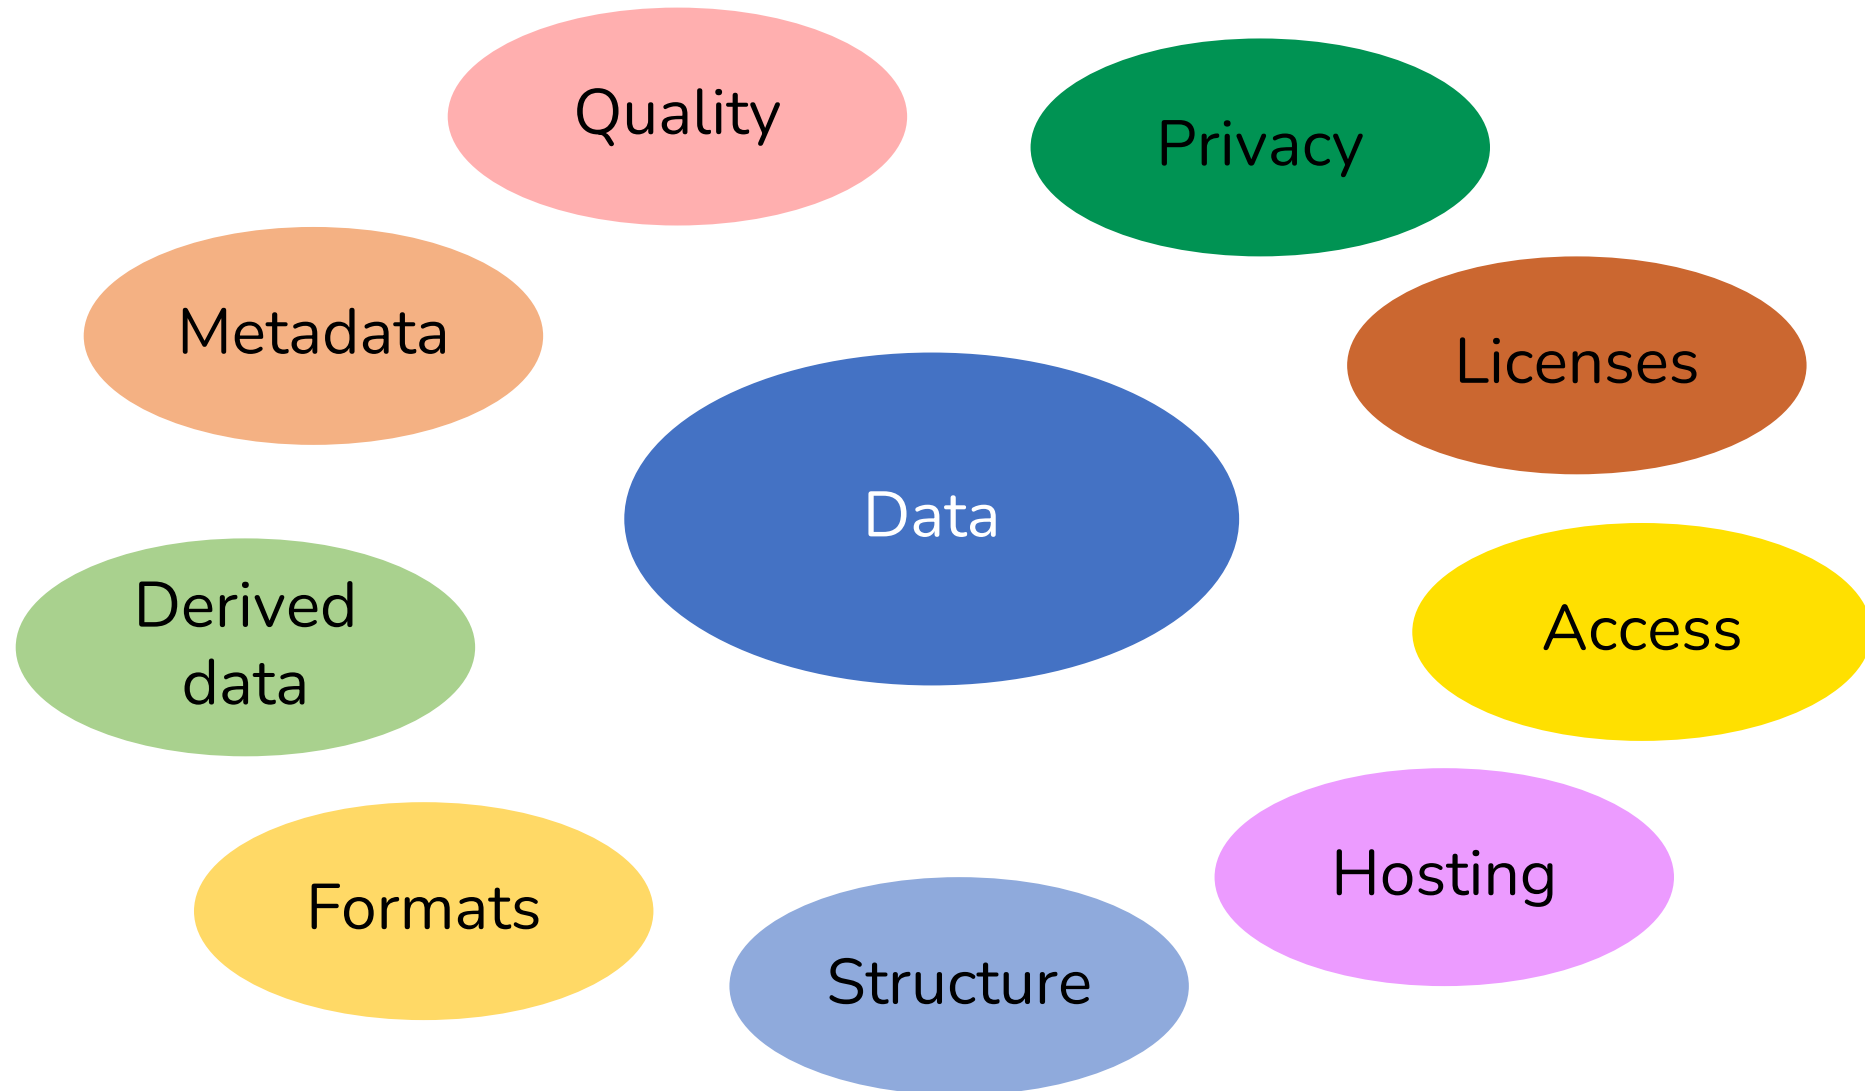

Welcome!

- Logistics
- Code of conduct
- Data

2024: Year of data!

- January: ORMIR Workshop
 - Sharing and Curating Open Data in MSK Imaging Research
- November: evening workshop at QMSKI
 - Why and how sharing MSK imaging data?

What to think about when thinking about data?

Working groups

- Guidelines for data sharing
 - Contact person: **Sarah Manske**
- Metadata standardization for (MSK)BIDS
 - Contact person: **Gianluca Iori**
- Biomechanics
 - Contact person: **Lorenzo Grassi**
- Data format converters (ScancoIO)
 - Contact person: **Matthias Walle**
